ANNUAL INDEX: VOLUME 49, 1988

Subjects

***Indicates a book review**

Use of the Index

This index is designed to reveal subjects and their interrelations. Thus, an entry, "Anxiety, youth, problem drinking," indicates an item dealing with the interrelationship of the three possibly independent topics, or of any two with the third. And an entry, "Drinking frequency, quantity, laws/liquor control," may reveal how drinking frequency, quantity is affected by laws/liquor control or how laws/liquor control affect drinking frequency, quantity. Items are extensively cross-indexed. For example, references to "Native Americans, drinker categories, predictors . . ." would also appear at "Drinker categories . . ." and at "Predictors . . ."

Terms

Generally, indexing is as specific as possible without posting to broader terms. Many relationships to certain very frequent terms are not indexed under those terms, but appear as main entries throughout the index; scope notes at those terms (e.g., at "Alcoholism," "Drinkers, drinking," guide to the index terms used. Preference has been given to direct rather than to inverted entries, e.g., "Prevalence of problem drinking" rather than "Problem drinking/prevalence." Information not found one way would be sought the other way—or under all possible synonyms. Certain index entries with multiple subdivisions are dealt with by successive main entries, such as "Accidents/fatal," "Accidents/traffic." Similarly, see "Acetate/blood," "Acetate/endogenous," etc. rather than "Blood acetate," "Endogenous acetate," etc.

AAIM (*see* Alliance Against Intoxicated Motorists)
Abstainers (*see also* Abstinence)
  alcoholics
    sociopsychological measures, 170–6
  Chinese Americans, 22–5
  demographic variables, 363–8
  Filipino Americans, 27–9
  Mexican Americans, 465–8
  women, 274, 277, 465–8
  youth
    longitudinal study, 225–9
Abstinence (*see also* Abstainers; Abstinence by alcoholics)
  drinking context, setting, 363–8
  motivation/drinking, 363–8
Abstinence by alcoholics (*see also* Controlled drinking by alcoholics)
  depression, 412–7
  therapeutic goal, 167–77
Abstinence Symptoms Inventory, 547
Abstracting abilities (*see also* Cognitive functions)
  women alcoholics
    familial alcoholism, 281–7
Accidents/drinking-driving (*see also* Accidents/fatal; Drinking drivers; Drinking-driving)
  recidivism, 445–7
Accidents/fatal (*see also* Accidents/drinking-driving)
  arrestees/drinking-driving
    recidivism, 445
Acculturation (*see also* Culture)
  drinker categories, 462–71
  drinking patterns, 27–9
  drinking-related problems
    predictors, 466–70
Acetaldehyde, 201*
Activation peaking
  alcoholics
    learning/visuospatial, 126–30
  intoxication/alcohol
    learning/visuospatial, 126–30
Addiction Research Center Alcohol-Related Behavior Questionnaire, 212
Addiction Research Foundation, 198, 199, 320, 321
Addictions (*see also* Addictive behaviors; Alcohol dependence; Alcoholism; Binge eating; Drug abuse; Polydrug abuse; Substance abuse), 107–8*
  treatment, 288*
Addictive behaviors (*see also* Addictions; Alcohol dependence; Binge eating; Drug abuse; Polydrug abuse; Substance abuse)
  change process
    treatment, 288*
Administration route
  disulfiram metabolism
    urine diethylamine, 571–5
Adolescents, *see* Children of alcoholics; Students; Students/college; Students/high-school; Youth
Adoptees
  children of alcoholics
    alcoholism inheritance patterns, 491–9, 500–9
Adverse Consequences Index, 152
Advertising/alcoholic beverages (*see also* Mass media)
  consumption/alcohol, alcoholic beverages
    review, 314–23
  drinker categories
    women, 275–9
  drinking behavior
    youth, 576–7
  sales/alcoholic beverages, 318–22
Aerobic capacity
  alcoholism treatment
    physical exercise, 418–21
Affection/parental
  children of alcoholics
    risk/alcoholism, 358–61
Affective disorders (*see also* Aggression; Anxiety; Belligerence; Depression; Dysphoria; Dysthymia; Hypochondriasis; Impulsivity; Mania; Melancholia; Obsessive-compulsive disorder; Panic disorder; Phobic disorder; Psychiatric disorder; Psychological disorders; Somatization)
  drug misuse-alcoholism, 512–4
Aftercare
  alcoholism treatment outcome
    follow-up, 149-59
  dropouts/alcoholism treatment, 155–8

Age of alcoholics, 151, 168, 213, 282
alcoholism onset,
typology, 85–92
alcoholism treatment/initial, 440
arrestees/drinking-driving, 3
cognitive impairment
ethnicity, 336–8
delirium tremens, 180
drug abuse, 512
initial drinking
suicide attempts, 440
intoxication/initial
suicide attempts, 440
suicide attempts, 438-41
Age (*see also* Age of alcoholics)
arrestees/drinking-driving, 2–3
recidivism, 445, 447
women, 8–9
attitudes/alcohol, drinking
Navajo, 327–30
blood alcohol
self-reports/drinking, 563–6
children of alcoholics
learning/visuospatial, 541
drinker categories
Chinese Americans, 22–4
diet, 271–2
Mexicans-Mexican Americans, 466–9
women, 276–8
drinking frequency, quantity
alcoholism screening tests, 534–6
motivation/drinking, 364–8
physiological indices, 534–6
registration/problem drinking, 247–51
youth, 253–60
drinking patterns
Filipino Americans, 27–9
drinking-related problems
Mexicans-Mexican Americans, 467–9
drug abuse-alcoholism, 512
marijuana-alcohol use
patterns, 378–9
motivation/drinking
abstinence, 364–8
drinking cessation, reduction, 364–8
drinking frequency, quantity, 364–8
onset of drinking
drug abuse-alcoholism, 512
predictors/alcoholism
children of alcoholics, 310–2
prevalence of drinking
Navajo, 326–7
violent behavior
drinking, 516–20
problem drinking, 516–20
Aggression (*see also* Violent behavior)
alcoholics
antisocial personality, 211–8
children of alcoholics, 359–61
Alcohol
Note: *Except the immediately following entries, most entries related to* Alcohol *appear as main entries throughout the index, e.g.,* Accidents, drinking frequency, quantity; Disinhibition, alcohol. *The two types of subentries* (alcohol, alcoholization) *are used to distinguish between acute and chronic administration to animals.*
Alcohol dependence (*see also* Addictions; Addictive behaviors; Alcoholism; Binge eating; Drug abuses; Substance abuse)
psychiatric disorders
identification of alcoholics, 219–24
Alcohol, Drug Abuse, and Mental Health Administration (ADAMHA), 384*
Alcohol metabolism, 201*
body water, 432–4
Alcohol pharmacokinetics
children of alcoholics
sex differences, 432–4
Alcohol policy
Navajo, 330–2
United States, 477–8*
Alcohol Research Center Intake Interview
diagnosis of alcoholism
validity, 93–9
Alcohol Safety Action Projects, 192
Alcohol/Substance Abuse Questionnaire, 87
Alcohol withdrawal
treatment
drugs, 201*
Alcoholic
Note: *Except the immediately following entries, most entries relating to* Alcoholic *appear as main entries throughout the index, e.g.,* Psychosis/alcoholic.
Alcoholic beverage availability
drinker categories
women, 275–9
Alcoholic beverage control
drinker categories
women, 275–9
Alcoholic beverage preference
food consumption
French, 269–71
Alcoholics Anonymous (*see also* Alcoholics Anonymous attendance; Alcoholics Anonymous involvement), 2, 65, 104, 107*, 109*, 336, 381, 383, 415
Alcoholics Anonymous attendance (*see also* Alcoholics Anonymous; Alcoholics Anonymous involvement)
social drinkers, 524, 526, 530
Alcoholics Anonymous involvement
relapse, 104–6
Alcoholism
Note: *Except the immediately following entries, most entries related to* Alcoholism *appear as main entries throughout the index, e.g.,* Death rates, alcoholism.
Alcoholism concepts (*see also* Alcoholism typology), 107–8* 167–8, 174–6, 384–5*, 478*
Alcoholism duration
suicide attempts, 439–40
women
cognitive functions, 281–7
Alcoholism psychodynamics, 289*
Alcoholism screening tests, *see* Cage Questionnaire; Identification of alcoholics; Michigan Alcoholism Screening Test
Alcoholism severity, 151
age
alcoholism onset, 88–91
children of alcoholics
alcoholism inheritance patterns, 491–9, 500–9
Alcoholism treatment (*see also following entries and see*

Alcoholism treatment (*cont.*)
Alcoholics Anonymous; Compulsory treatment; Counseling/group; Detoxication programs; Disulfiram; Dropouts/alcoholism treatment; Encounter techniques; Follow-up; Home visits; Relapse; Transactional analysis), 107-8*, 440, 447-8*
arrestees/drinking-driving, 1-6
